National AGC Safety Awards
Supplemental Data Form

OSHA Form 300A

Review your OSHA form 300A and note:

- Section (G) “Total number of deaths”;
- Section (H) “Total number of cases with days away from work”;
- Section (I) “Total number of cases with job transfer or restriction”;
- Section (J) “Total number of other recordable cases”; and
- Employment Information “Total hours worked by all employees last year”.

1. Locate your chapter code and name on the Chapter Code List. If you belong to multiple chapters, submit your participant form to **one** chapter only.
2. If you are unsure of your AGC Member ID Number, contact your chapter.
3. Review the Division Descriptions before selecting your division/construction type(s).
4. If you perform work in multiple divisions, you can do one of the following:
 - Compete in **one division** by submitting your safety statistics and work hours for that division only; or
 - Compete in **multiple divisions** by separating your safety statistics and work hours accordingly.
5. Multiple entries in the same division are **not** allowed.
6. Regardless of where you perform work, all safety statistics and work hours must be reported.

Division Descriptions

- A. The following divisions apply to members who are **General Contractors (GCs) ONLY**. A general contractor is usually responsible for supplying of all material, labor, equipment, and services necessary for the construction of a project. GCs may perform work in one or more of these divisions.
- **Building:** Projects include single-tenanted or multi-tenanted office buildings, restaurants and retailers, industrial facilities such as heavy manufacturing, bulk warehouse, mixed-use industrial and office space, and light assembly, as well as multifamily properties - condos, apartment, townhomes, high-rise apartment buildings, co-ops, etc.
 - **Highway:** Projects include highways, bridges, lane expansions, interchange improvements, new interchanges or alignments, overpasses, pedestrian bridges, road tunnels, transit and railroad projects.
 - **Federal & Heavy:** Federal projects are completed for the Corps of Engineers, NAVFAC, the Air Force, GSA or other federal agencies; any type of marine construction or dredging projects for sports and inland waterways; flood control and prevention projects for the Natural Resources Conservation Service, Bureau of Reclamation and any industrial plant construction. Heavy contractors' operations may not fall within the definition of the other divisions and engages in heavy construction other than buildings. The completed projects include but are not limited to sewers, irrigation projects, flood control projects, trenching/excavating, and marine construction.
 - **Utility Infrastructure:** Projects are related to water and wastewater, underground utility, site preparation and other types of public works construction such as public facilities, gas, water, sewer, or electrical. Construction or rehabilitation is typically underground, but is not all-inclusive and may be open, cut or trenchless.
- B. The following division applies to members who **are not GCs**.

Associate/Specialty: Specialty contractors' operations do not fall within the definition of "general contractor". A specialty contractor may only subcontract work that is incidental to the specialty contractor's work. Vendors and suppliers also fall into this division. A vendor or supplier is any company that provides construction services or materials, manufactured products, construction equipment or other goods to contractors or specialty contractors.
