

## Join Us For Talk Saves Lives: Construction

Based on American Foundation for Suicide Prevention's (AFSP) flagship suicide prevention education program, Talk Saves Lives: Construction is a new program that has been adapted for the construction industry. Presented by a construction industry professional or trained AFSP volunteer, this program will provide an overview of suicide in the construction industry, risk factors and warning signs of suicide, and strategies to prevent it. Followed by a Q&A and information on how construction companies across the U.S can bring this presentation to jobsites and offices.

**September 10, 2025**  
**11:30-1:30**  
**Lunch Provided!**
