

KUNA DATA CENTER TRADE PARTNER OUTREACH EVENT

April 7, 2022

9:00 a.m. - 5:00 p.m.

Idaho Associated General Contractors
Education Center
1649 W. Shoreline Drive
Boise, Idaho 83702

Meta's Kuna Data Center, located in Kuna, Idaho includes four data halls, each with Main Distribution Frame (MDF), Main Point of Entry (MPOE) and a central administration building connecting to two of the data centers forming an 'H' shape. This 1,000,000 square foot building is designed to deliver 60 megawatts (MW) of power across the four data halls. Additionally, the construction scope for this project includes site utilities infrastructure (storm sewer, sanitary sewer, power, water, and Outside Plant (OSP) fiber loop pathways), site roadways and paving, and campus access control.
